Dear Peter,

### 1) Julia's Wedding

dates : April : completely free until the 22 nd ( full moon Friday 17th)  
May : free from 18th to 31st of May ( but Antoinette will have problems at that period )  
June : free from 17th of June until 6th of July.  
July : free from the 17th to August 2nd.

We already have an option for the June Full Moon (the 15th) to rehearse the Kepler's project, but nothing is signed yet.  
Things are still movable, and we can adjust.

### housing :

In principle there should not be problems of capacity to house everybody in Gourgoubès and in the various neighbours houses where we rent extra bed rooms and appartments that are very nice .

We think we can come down between 140 and 150 frs per day and per person for a minimum of 4 days . Except for Gourgoubès it's difficult to rent around by the day . It usually goes by the week . Some people will have to share bed rooms , or bathrooms.

The guests would be housed in various places :

18 persons in Gourgoubès with all comfort (individual bathrooms and toilets, 2 appartments with private phone , living rooms etc...) that would be 5 bed rooms with large beds ( couples)  
3 bed rooms with double beds  
2 individual beds in living rooms.

9 persons in two appartments 500 m from Gourgoubès with comfort but no individual bathrooms. ( Nemone knows them : les gîtes de la Mairie , where the kids were last year ) 3 bed rooms with double beds, 1 large bed in living room and one kid bed in the other living room .

All the other guests can be set up in 5 or 6 appartments in the neighborhood and in a small nice guest house in Saint Jean de Buèges . Some of them are very nice , some a little less, but all clean and characteristic. They are places where people come for holidays ... so they are in nice locations .

All of them are no more than 5 minutes by car from Gourgoubès ( from 1 to 5 km). They are what we call in France Gîtes ruraux.

Food:

I will propose you a list of menus and prices later this week, you have to give me a percentage of vegetarians ( 20% ? 50% ? ).

It's good if we can plan everything quite precisely in advance . Probably the food should be also in relation with the ritual, so we can have more time to prepare that. Any way it should include local specialties and products from the land here, and from the sea .

For the ritual and feast side of it , you know very well Gourgoubès potential. We will talk probably with Antoinette soon. I can take care of the "directing" or programming of it , but we have to leave a great space for spontaneity and suggestions.

The close relation with nature should probably be the common link between everybody .

Lets keep talking !

I will recontact you probably tomorrow for some talk about the "Moon project ".

Hello to all the family from evrybody here in Gourgoubès !
